THE 3rd ENERGY INDUSTRY DELEGATION TO BRUSSELS

Why Join the Delegation to Brussels?

Following the success of the last two delegations we are returning in October to meet decision-makers in the European Commission and the Parliament. You will be able to help affect change by influencing the people who determine your energy future.

Officials in Brussels are keen to understand your views on their proposed legislation that will be implemented across Europe.

Vital Energy Topics

Prices, Unbundling, Security of Supply and Low Carbon Initiatives will be among the topics in this two day conference with workshops which will drill down into the detail and provide a real opportunity to debate the issues with key EU policy-makers.

Acclaimed Speakers from Across Europe

Top speakers, officials and the leading specialists will provide you with the latest information, critical points of view and insight into EU Commission and Parliament initiatives.

Networking Opportunities

Share experiences with like-minded professionals and glean information from top policy-makers. If you are interested in networking with specific individuals please speak to the conference organisers.

High Quality Conference & Workshops

Hear key issues during the conference presented by top-level EU officials, MEPs, suppliers, customers and energy experts. Enter the debate in the workshops to effect change.

Belgian Banquet

Join us in the EU Parliament Building for a Belgian Beer Reception followed by a Banquet and an evening of essential information, good food, wine and a key-note address from a European Energy Minister.

Major Energy Users' Council

The Major Energy Users' Council's Mission:

To bring together large customers, suppliers, Government officials and energy industry specialists to influence the future of the markets through regular liaison with the people who make the decisions.

Major Energy Users' Council (meuc) was created in 1987 to:

- Lobby Government, influence policy changes and be the voice of all who are committed to a secure energy future.
- Establish an independent network so professionals can share experiences.

Book before
17 September
and save
£90!

***"... your efforts in Brussels
emphasise you have an edge
and are no nodding dog."***

Stephen Jackson, UCA Limited

***"Over the years I have found the meuc
an influential and effective force for
good in terms of shaping energy policy,
not only for its members but for other
energy stakeholders and the
environment too. Participating in its
events brings people across the energy
sector together, and the outcomes are
always collaborative and positive".***

Paul Garrett, Utilities Communications
Director, Accenture
